

Mario Kart World Wiki -- Mockup Journey

Home -> Characters -> Character Detail -> Tracks -> Favorites

What the user does here:
Lands here on open. Sees the four content categories and a search bar.

Where each tap goes:
Any category card -> that guide's list. Search bar -> search. Avatar chip -> that character's detail page. Bottom nav -> switch section.

What the user does here:
Scrolls the full roster, filters by weight class, checks unlock status at a glance.

Where each tap goes:
Filter chip -> re-filters list. Row -> Character Detail screen. Checkmark/lock icon is status only, not tappable. Search icon (top right) -> search.

What the user does here:
Reads one character's stats and unlock requirement -- this is the app's signature screen.

Where each tap goes:
Back chevron -> previous list. Star (top right) -> add/remove Favorite. Kart chips at bottom -> that kart's detail page.

What the user does here:
Browses tracks by cup, checks difficulty before racing.

Where each tap goes:
Row -> Track Detail screen (shortcuts, hazards, strategy -- same pattern as Character Detail). Search icon -> search.

What the user does here:
Reviews everything they've saved across characters, tracks and karts in one place.

Where each tap goes:
Row -> that item's detail screen. Star -> remove from Favorites. Empty-state hint shown when list is empty.
