

1. Palette

ColorScheme roles

#FF3B30

primary
Buttons, active nav tab, key CTAs

#FFFFFF

onPrimary
Text/icons drawn on primary

#FFD60A

secondary
Favorite star, highlights, unlock badges

#1B2030

surface
Cards, sheets, bottom nav

#F5F7FA

onSurface
Body text on surface/background

#FF6B6B

error
Validation, destructive actions (e.g. clear favorites)

Surface + text tokens

#10131A

background
App background (dark theme)

#262D42

surfaceHigh
Elevated / pressed state

#2A3044

divider
Card borders, list dividers

#4391FF

blue (data tag)
Track category tags, secondary badges

#34C759

green (success)
Unlocked check, Easy difficulty

#A8B0C4

text/secondary
Subtitles, helper text

#6E768A

text/tertiary
Placeholders, disabled

Contrast check — body text on background

The quick red kart jumps over the lazy Goomba.

onSurface (#F5F7FA) on background (#10131A) — passes 4.5:1 easily (measured ~17.6:1).

Secondary text (#A8B0C4) on background — ~9.8:1, also passes.

Dark mode: decided now.

Dark-theme only for this project. ThemeMode.dark is fixed on MaterialApp — no light ColorScheme is maintained, so no color is ever hardcoded outside theme.dart.

2. Type scale & spacing

TextTheme

Aa"Display" sample text

displaySmall · 30px · Bold · Poppins-Bold
Hero name on detail screens (e.g. "Mario")

Aa"Heading" sample text

headlineSmall · 24px · Bold · Poppins-Bold
Screen titles ("Characters", "Tracks")

Aa"Title" sample text

titleMedium · 17px · Bold · Poppins-Bold
Card / list item names

Aa"Body" sample text

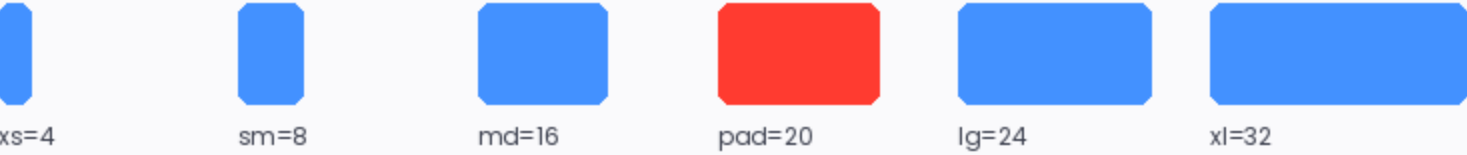

bodyMedium · 14px · Regular · Poppins-Regular
Descriptions, subtitles

Aa"Caption/Label" sample text

labelSmall · 11px · Bold · Poppins-Bold
Tags, chips, nav labels

Spacing

Base unit: 4 · Screen edge padding: 20 · Gap between list items: 12 · Gap between sections: 24

("pad" = screenPadding, the one-off outside the xs/sm/md/lg/xl scale)

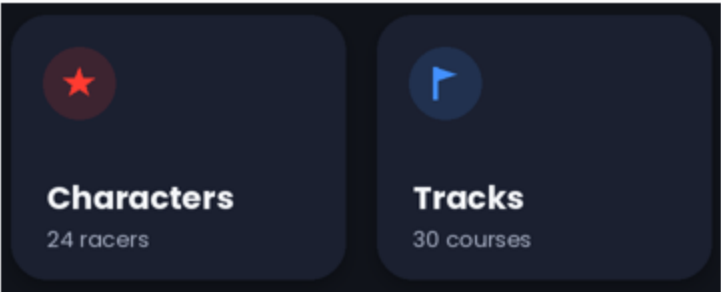

Applied — card list with standard gaps:

List item 1 (gap below = 12px)

List item 2 (gap below = 12px)

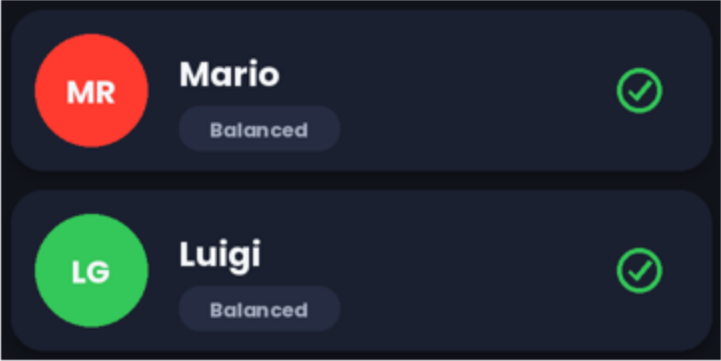

List item 3 (gap below = 12px)

3. Components

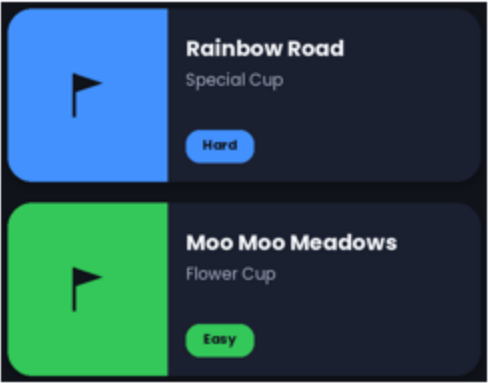

CategoryCard
`lib/widgets/category_card.dart`
String title, String subtitle, IconData icon, Color accent, VoidCallback onTap

Appears on: Home

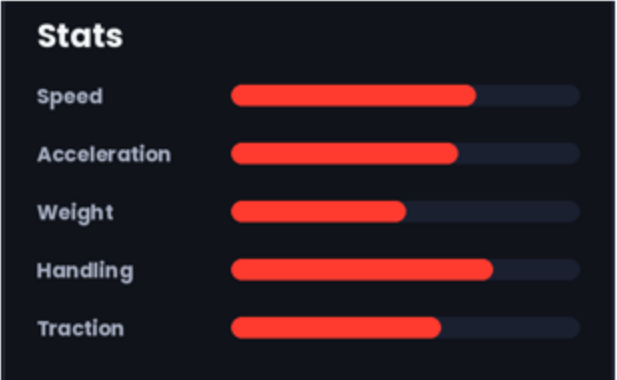

EntityListTile
`lib/widgets/entity_list_tile.dart`
String name, String subtitle, Color avatarColor, String initials, Widget trailing, VoidCallback onTap

Appears on: Character Guide, Favorites

TrackCard
`lib/widgets/track_card.dart`
Track track, VoidCallback onTap

Appears on: Track Guide

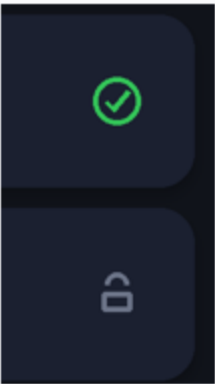

StatBar
`lib/widgets/stat_bar.dart`
String label, double value // 0.0-1.0

Appears on: Character Detail, Track Detail, Kart Detail

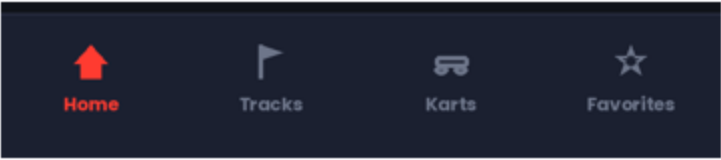

FavoriteButton
`lib/widgets/favorite_button.dart`
bool isFavorite, VoidCallback onTap

Appears on: Detail screens, list rows, Favorites

UnlockStatusIcon
`lib/widgets/unlock_status_icon.dart`
bool unlocked

Appears on: Character Guide, Character Detail

AppBottomNav
`lib/widgets/app_bottom_nav.dart`
int currentIndex, ValueChanged<int> onTap

Appears on: Home, Character Guide, Track Guide, Favorites

EmptyState
`lib/widgets/empty_state.dart`
String message, IconData icon

Appears on: Favorites (and any list with zero items)
